

ENVIRONMENTAL SUSTAINABILITY POLICY

The Management of the AC MARCA Group establishes, through its **Environmental Sustainability Policy**, a framework that includes the general principles that govern the business sustainability model designed and applied to the entire organisation, in which it expresses its commitment to:

⇒ **Strengthening environmental protection and contributing to the improvement of the environment as a fundamental principle of the company's activity, consolidating:**

- continuous improvement of its *environmental management system*,
- compliance with *current environmental legislation*, and all other applicable laws,
- establishing measures that contribute to the objectives defined in the sustainable development goals
- minimising the *environmental impact* of its activities with the aim of preventing damage to people, property, and the environment.
- the incorporation of *efficiency criteria* into its processes, facilities, and all stages of the product life cycle,
- promoting a *culture of sustainability* among its stakeholders.

⇒ We will continue to pursue **environmental sustainability as an essential part of the growth and development of our activity**, continuously building the *sustainability strategy* associated with the mission, vision, and values of the organisation, in such a way that it becomes a key lever of change and competitiveness for the AC MARCA Group.

Our Environmental Sustainability Policy is pursued through 3 fundamental lines of action:
